IARRIMAN STOCKS TAKE UPWARD JUMP

Political News Has Stimulating Effect on Wall Street Market.

BEARS BRING ABOUT A GENERAL DECLINE

Recognized That Impaired Bank Reserves Must Be Considered in Dealing.

NEW YORK, Dec. 12 .- Today's politial news received a favorable interpretain in Wall street and was signalized many opening advances of from 1 to 2 ints, with the Harriman stocks displayg the most activity and strength. The tion of the market alarmed the short iterest and they bought extensively, givig an appearance of great strength and almation to the trading. The initial ices, however, proved to be the high-

prices, however, proved to be the highast, as receipts of favorable factors intruded themselves and the market lost
what it had gained.

The failure of the buils to follow up
their advantage encouraged the bears to
work diligently to break prices, and by
concentrating their selling against certain stocks in which the special considariations appeared, the latter managed to
bring about a general decline. The principal stocks. New York Central, Pennsylrania and Missouri Facific, were targets
for selling at intervals. These circumstances offset the good effect produced by
the relaxation in call money, the high
rate today being only about half of that
prevailing yesterday.

While the more abundant supply of
funds on call relieved the concern felt
over the money conditions to some extent,
it is recognized that the needs of early
large corporate requirements and the
leccestiv of the gradual repair of im-

tover the money conditions to some extent, it is recognized that the needs of early large corporate requirements and the necessity of the gradual repair of impaired bank reserves are influential factors to be considered in the future stock market operations.

Reports from the interior of improved monetary conditions are supported by the lighter shipments from here, but the position of local banks has been essentially favored by this development, owing to the heavy drain on sub-treasury operations. The banks have lost nearly \$50.100,000, on this account during the week. Time funds continue unattainable in large amounts, and rates though high are considered purely nominal. In spite of these unfavorable circumstances, the market, as a whole, rendered fairly good account of liself and evidence of support at opportune times.

A large proportion of the day's business was transacted at the high range of prices, the market thereafter sagging in a dull and listless fashion until the list aventually fell back to a parity, with yesterday's closing prices or below. The bear attacks which occurred at frequent intervals during the day were aided, in large part, by the timidity of the bulls to revive the market from its lethargy, and when the room operators offered large amounts of different stocks simultaneously the supporting orders were withdrawn and heavy stop-loss orders were uncovered.

Bonds were firm. Total sales, par value, 52, 110,000.

Linied States 2s registered and 2s advanced 2 and the 4s 3 per cent on call.
